

After all, you are representing a great university. And I appreciate the fact that people can be student-athletes. I appreciate it because at some point in time, you're not going to be an athlete. At some point in time, you're going to have to use the skills you learned as a student to be a constructive citizen of the United States. And so, Coach, I appreciate the fact that you work hard with these players to make sure that they take advantage of this fantastic opportunity, and that is to be a student at the University of Florida.

I also appreciate the spirit of giving that's a part of this football program. I don't know if you know this or not, but Coach Meyer hosts the annual Urban Meyer Golf Scramble for Kids. This year, the event raised a record \$300,000, all aiming at helping youth organizations buy equipment, all aiming at touching a soul, trying to make somebody's life better.

Coach, I appreciate the example you set, and I also appreciate the fact that 32 of your football players volunteered for community organizations; 32 souls said: "I'm more than a football player; I'm a leader when it comes to helping the community in which I live."

Jemalle Cornelius just so happens to be captain. Here's what he said; he said: "If everyone took a small leadership role in whatever it is they do, we can help eliminate some of the problems that are in our society." I love the spirit. I love the fact that champions understand you've got to be a champ on the field as well as a champ

off the field. And I believe one of the reasons this program is successful is because not only you're good football players, but you're good people.

And I want to say one other thing about—now that I've got the mike—[laughter]—I want to say something at Cam Brewer. Where's Cam? There he is, right there—United States Marine. I appreciate the fact that you wore the uniform of the United States of America. I appreciate the fact that you put self—something larger than yourself as an important part of your life. It's a good example, isn't it? And now I appreciate the fact that you've taken advantage of the educational opportunities offered to those who have worn the uniform and gotten yourself an education at a fine university.

Again, I want to welcome you all to the White House. It's an honor to welcome you here. More importantly, it's an honor to welcome the National Football Champion Florida Gators.

NOTE: The President spoke at 3:03 p.m. on the South Lawn at the White House. In his remarks, he referred to former Gov. Jeb Bush of Florida; J. Bernard Machen, president, Manny A. Fernandez, chairman of the board of trustees, and Jeremy N. Foley, athletic director, University of Florida; Carolyn K. Roberts, chairman of the board of governors, State University System of Florida; and Ray McDonald, defensive end, and Jemalle Cornelius and Cam Brewer, wide receivers, University of Florida football team.

## Statement on the Death of Raymond D. Nasher *March 19, 2007*

Ray Nasher was a brilliant businessman, diplomat, and philanthropist. Through his service at the United Nations, he represented the best of his country and his home State of Texas. Through his patron-

age of the arts, he shared his magnificent collection of modern and contemporary sculpture in countless office spaces and the world-class museums he created in Dallas and at Duke University. Ray served the

last three Presidents as a member of the President's Committee on the Arts and Humanities and served his country by giving

all Americans greater access to the arts. Laura and I send our deepest condolences to Ray Nasher's family and friends.

## Message to the Congress on Trade With Haiti

*March 19, 2007*

*To the Congress of the United States:*

The Haitian Hemispheric Opportunity through Partnership Encouragement Act of 2006 (Division D, Title V of Public Law 109-432), amends the Caribbean Basin Economic Recovery Act (Title II of the Trade and Development Act of 2000, Public Law 106-200)(CBERA), to make certain products from Haiti eligible for preferential tariff treatment. In accordance with section 213A of CBERA, as amended, I have determined that Haiti meets the eligibility re-

quirements under section 213A(d)(1) of CBERA, as amended, and that Haiti is meeting the conditions regarding enforcement of circumvention under section 213A(e)(1) of CBERA, as amended.

GEORGE W. BUSH

The White House,  
March 19, 2007.

NOTE: This message was released by the Office of the Press Secretary on March 20.

## Remarks on Energy in Claycomo, Missouri

*March 20, 2007*

Thank you all. Please be seated. Alan, thank you. It's good to be here in Kansas City. Thank you for your warm hospitality. I've had—I guess you'd call it "Car Day." [Laughter] I started off at a GM plant across the way, and now I'm at the Ford plant. My impressions are—is that American automobile companies are essential to keeping us competitive, essential to providing good jobs, and these manufacturing facilities are full of some really—finest citizens in our country.

I thank you for your hospitality. I enjoyed walking up and down the line, shaking people's hands. I'm impressed by just how warm everybody was. And I thank you; I really do. It's been a joy to be here.

The reason I've come is, I want to highlight an important initiative for the country, and that is to promote technologies so we are less reliant upon foreign sources of oil.

And the best way to become less reliant on foreign sources of oil is to manufacture automobiles that will use either less gasoline or different kinds of fuels. And that's what we're here to talk about.

The Ford plant, the GM plant are producing automobiles that are the beginning, really, of helping this country develop a wise energy policy and a wise environmental policy. And so I appreciate the fact that we've seen hybrid technologies and the world's first hybrid SUV, ethanol-driven cars. Americans are just getting used to this kind of technological—these technological breakthroughs—something you're used to. See, you make these cars all day long, but I don't think our citizens fully understand what is happening in America. And that's why I've come to highlight the technological changes that we're seeing.
